About ECET

The European Council of Enterostomal Therapy (ECET) is a professional nursing society, which supports specialized nurses all over Europe with educational standards, best practice guidelines and research projects. Find more information on the society website: www.ecet-stomacare.eu

The ECET is a non-profit association and has the following objective:
The development of a professional identity on a European level for the entire nurses and health care professionals, concerned with or active in the area of stomatherapy, incontinence care and/or treatment of wounds.

The main aims of the society are

- ✔ to establish European recognition for nurses specialized in the area of stoma care, incontinence care and / or treatment of wounds
- ✔ to bring together health care professionals involved in the care of stoma patients
- ✔ the association shall ensure the protection and defense of professional interests of its members
- ✔ to promote research and to ensure that knowledge remains up to date
- ✔ to encourage contacts and collaboration with the industry, distributors or official health care insurance organizations with the aim of improving the quality of care and the various devices
- ✔ to organize conferences, seminars, and short training courses
- ✔ to break down national barriers and to promote European identity
- ✔ to promote the exchange of information between various European countries by establishing efficient communication systems
- ✔ to develop educational standards which are generally recognized in Europe
- ✔ to promote stoma care according

Welcome to ECET 2025

It is a great pleasure to welcome you to the 2025 Meeting of the European Council of Enterostomal Therapy (ECET).

One of the most important objectives for this conference is to create a platform for European nurses and other health professionals working with enterostomal therapy to get together and share their academic and clinical experiences within ostomy, incontinence and wound care.

Furthermore, it is also important to develop and keep improving products and treatments within ostomy, continence and wound care – this can only be done in collaboration with industry. Thus, another important objective of this conference is to create networking opportunities for participants and industry representatives, so they can meet and possibly find collaboration partners for future projects.

We also hope that you will enjoy the vibrant and historic city of Barcelona while you are here. We hope you will enjoy both the scientific and the social parts of the conference!

Kind regards

On behalf of the ECET Executive Board,

Gabriele Kroboth
RN, MSc, ET/WOC Nurse
President ECET

Renata Batas
ET/WOC Nurse
Vice president ECET

Margarete Wieczorek
RN, ET/WOC Nurse
Secretary ECET

Wednesday 26 March

09:30-09:45	Opening by the ECET Board	Gabriele Kroboth, President ECET, Austria Renata Batas, Vice president ECET, Slovenia Margarete Wieczorek, Secretary ECET, Germany
09:45-10:00	Opening words by President of Sociedad Espanola de Enfermeria Experta en Estomatherapia,	Maria Jesus Bernarte Sorribas, President of Sociedad Espanola de Enfermeria Experta en Estomatherapia José Luis Cobos, Vice President III of the General Nursing Council of Spain - Vicepresidente III del Consejo General de Enfermeria de España
10:00-10:30	Marcaje preoperatorio de la ostomia en cirugía urgene, una intervención enfermera que reduce la dermatitis, la estancia hospitalaria y los costes sanitarios <i>Preoperative ostomy marking in emergency surgery, a nursing intervention that reduces dermatitis, hospital stay and health care costs</i>	Leticia Benitez Santana, Spain
10:30-11:00	Peristomal skin irritations - The challenges for ostomy patients and professionals	Renata Batas, ET/WOC Nurse, Slovenia; Vice president ECET; Community Health Centre Ljubljana, Slovenia
11:00-11:15	European ostomy association as support for ostomy patient rehabilitation	Jon Thorklesson, President EOA, Iceland
11:15-11:45	Break	
	Peristomal skin disorders and treatment	Chairs: Ayiše Karadağ, Renata Batas & Gabriele Kroboth
11:45-12:15	Peristomal skin disorders and treatment from medical point of view	Tanja Planinšek Ručigaj, Assoc. Prof. , MD, Senior Councillor, Specialist in Dermatovenerology, EFWH, Slovenia
12:15-12:30	Classic treatment of peristomal skin disorder	Margarete Wieczorek, RN, WOCN, Germany
12:30-12:45	Use of Cold Plasma in peristomal skin irritation	Gabriele Kroboth, MSc, ET/WOC Nurse, Austria
12:45-13:00	Prevention and/or treatment of peristomal lesions "combining hydrocolloid technology with accessories."	Elena Maria Serrano Moreno, Spain
13:00-14:00	Break	
	Optimizing Stoma Outcomes: The Critical Role of Stoma Site Marking	Chairs: Margarete Wieczorek & Dr. Sandra Reitmeier
14:00-14:20	The Importance of Stoma Site Marking: Key Considerations and Practical Tips	Prof. Ayiše Karadağ, RN, PhD, ET/WOC Nurse, FAAN
14:20-14:40	Stoma Site Marking in Literature: What Do the Studies Reveal?	Ayşe Silanur Demir, PhD Candidate, Research Assistant, RN
14:40-15:00	The Impact of Stoma Site Marking on Stomal and Peristomal Complications: An International, Multicenter Retrospective Cohort Study	Havanur Kılıç, PhD Student, Research Assistant, RN
15:15-15:30	Psychological effects on nursing in ostomy and wound care	Sandra Reitmeier, Dr., Psychologist, Germany
15:30-17:15	Break	
	Research	Chairs: Renata Batas & Maria Jesus Bernarte Sorribas
17:15-17:30	From evidence to excellence: Improving patient care through research	Ljubiša Paden, Assist. prof. dr., RN, Slovenia
17:30-17:45	Guias Praxis <i>Praxis Guides</i>	Sonia Herrera, Index Foundation Spain
17:45-18:00	Impacto de la implementación de las buenas practicas en el proceso asistencial de la persona ostomizada <i>Impact of the implementation of best practices in the care process of the ostomized person.</i>	Leticia Benitez Santana, Spain
18:00-18:15	Research in Nursing	Sonia Herrera, Index Foundation Spain
18:15-18:30	Remote educational intervention for people with stoma: experiences of patients and stomatherapists. A phenomenological qualitative study protocol	Andrea Poliani, Center for Nursing Research and Innovation (CeNRI) - Faculty of Medicine and Surgery, Italy
	Fistula management	Chairs: Gabriele Kroboth & Renata Batas

Thursday 27 March

08:30-08:45	Assessment and Management of Enterocutaneous and Enteroatmospheric Fistula	Dr. Fernando Ferreira, Portugal
08:45-09:00	Treatment of fistulas	Dr. Eva Barbosa, Portugal
09:00-09:15	High Output Syndrome	Scarlett Summa, RN, WOCN; University hospital, Erlangen, Germany
09:15-09:30	Radiotherapy wound - classification and care	Ivanka Benčić, Croatia, MSc, RN, ET/WOCN, UHC Sestre milosrdnice, Zagreb, Croatia
09:30-10:00	Break	
	Convex skin barriers	Chairs: Margarete Wieczorek & Annika van der Linde
10:00-10:15	Use of Convexity in Ostomy Care	Scarlett Summa, RN, WOCN; University hospital, Erlangen, Germany
10:15-10:30	Characteristics of Convex Skin Barriers and Clinical Application	Scarlett Summa, RN, WOCN; University hospital, Erlangen, Germany
10:30-10:45	Clinical cases use of convexity	Kenlis Santana, M ^º Jesús Bernarte, Uso de Convexidad, Casos Clínicos, Spain
10:45-11:00	HydrustomaC3 - Assessing Safety and Efficacy of Innovative Medical Devices for Colostomy Patients: A Randomised Controlled Trial	Lilianda Miranda, Portugal
11:00-11:30	Break	
	IAD - Continence	Chairs: Gabrielle Kroboth & Renata Batas
11:30-11:50	MASD: The Science Behind Moist Skin and Skin Health	Dimitri Beeckman, RN, MSc, PhD, Belgium
11:50-12:10	Conducting an IAD Quality Improvement Project in Your Local Institution	Anika Fourie, RN, MSc, PhD, Belgium
12:10-12:30	The Role of Nurses and the Interdisciplinary Team in Skin Health and Quality Management	Kimberly LeBlanc, PhD, RN, NSWOC, WOCC (C), FCAN, Canada
12:30-12:45	Incontinence and its associated dermatitis	Margarete Wieczorek, RN, WOCN & Florian Spahn, RN, WOCN, Germany
12:45-13:00	The factors influencing the feeling of shame in people with incontinence: The Incotest Study	Andrea Poliani, Center for Nursing Research and Innovation (CeNRI) - Faculty of Medicine and Surgery, Italy
13:00-14:15	Break	
14:15-15:30	Workshop: Convexity	Scarlett Summa, RN, WOCN, Germany
15:30-16:00	Break	
16:05-16:55	E posters session Room: E-poster screen 3, exhibition hall	Chairs: Renata Batas & Maria Jesus Bernarte Sorribas
Presentations:		
	ECET13: The Challenge of the Enteral fistula Management with Negative Pressure Wound Therapy: case studies	Jisue Yuk, Korea, Rep. Of South
	ECET10: Treatment of Stoma mucocutaneous separation (MCS) with cavity	Claudia Poggi, Israel
	ECET20: The Lived Experience of Sexual Life with Female Ostomates	Jisue Yuk, Korea, Rep. Of South
	ECET25 Exploring leakage onto clothes and worry about leakage among people living with a stoma	Anne Steen Hansen, Denmark
	ECET26 Taking medication after stoma surgery - a brochure for stoma patients to get help for	Annika van der Linde, Germany
	ECET38: Investigation of Methods for Protecting the Peristomal Skin at Ileostomy	Hidemi Ishii, Japan
	ECET39: Care Challenges for Peristomal Over - Granulation	Namiko Yamanaka, Japan
	ECET58 Seguimiento en paciente con complicaciones en piel periestomal y en manejo de ostomía, por	Sara Cruz Cardiel, Spain
	ECET59 Tecnologías y la Consulta de Enfermería en el Cuidado de Personas con	Estomas: Relato Fernanda Simões Valadão, Spain

Thursday 27 March

E-Posters on display		
	ECET21: Risk factors for pressure injuries in hospitalized adult patients: A systematic review	Hyunjung Yeo, Korea, Rep. Of South
	ECET24: Real-World Health Care Outcomes and Costs Among Patients With a Stoma in Norway	Wenche Strøm-Magnussen, Norway
	ECET29: Stoma and pyoderma gangrenosum	Monika Antonova, Czech Republic
	ECET36: Stoma nurse Expert ostomates, families and caregivers care framework	Maria Rosa Costa Quintas, Spain
	ECET44: Management of Hypergranulation Tissue Using Dialkylcarbomoyl chloride(DACC) Dressings: A Case Study	Huiwon Seo, Korea, Rep. Of South
	ECET54: Management of patients with Pyoderma Gangrenosum	Jungha Kim, Korea, Rep. Of South
	ECET55: Benefits of one piece ostomy systems	María Consuelo Arellano Requena, Spain
16:55-17:30	Break	
17:30-18:45	Workshop: Fistula Management	Margarete Wieczorek & Florian Spahn, Germany

Friday 28 March

Case Studies		Chairs: Gemma Arrontes, Maria Jesus Bernarte Sorribas & Ljubiša Pađen
08:30-08:45	Uso de dispositivos moldeables ¿Mejoran la calidad de vida del paciente? <i>Do the use of moldable devices improve the patient's quality of life?</i>	Patricia Ferrero Sereno, Universidad Alfonso X El Sabio, Spain
08:45-09:00	Cutaneourostomia cutánea, un pliegue, una úlcera y una pieza <i>Cutaneourostomy, a fold, an ulcer and a piece</i>	Elena Esteban, Spain
09:00-09:15	Gangrena de Fournier, caso clínico <i>Fournier's Gangrene, clinical case</i>	Aurora Margarita Poma, Poma Villena, Hospital Universitario la Luz, Madrid, Spain
09:15-09:30	An evidence-informed practice to prevent readmission due to dehydration in newly ileo-ostomized patients	Marie Pilebo, Zealand University Hospital, Denmark
09:30-09:45	Patients' experiences of the assessment of a support garment in parastomal bulging – a qualitative study	Trine Bolette Borglit, Zealand University Hospital, Department of Surgery, Denmark
09:45-10:15 Break		
Use of ostomy care appliances & ostomy care - innovations, apps, digitalisation		Chairs: Maria Jesus Bernarte Sorribas & Annika van der Linde
10:15-10:30	Pharmacological guide in ostomies. App application: Ostomecum	Ines Naranjo, Spain
10:30-10:45	Randomised clinical trial on the efficacy of efferent sasa stimulation prior to ileostomy closure	Cristina Vidal, Spain
10:45-11:00	Study on the use of one-piece device. Scientific article	Kenlis Santana, Spain
11:00-11:15	Telehealth vs in-person education for improving self-care of ostomy patients (SELF-STOMA): preliminary results of a non-inferiority randomized controlled trial	Alessia Campoli, Italy
Quality of life or psychophysical aspects		Chairs: Renata Batas & Margarete Wieczorek
11:15-11:30	Holistic care of ostomy patient - WOCN perspective	Ivanka Benčić, MSc, RN, ET/WOCN, UHC Sestre milosrdnice, Zagreb, Croatia
11:30-11:45	Effect of technology-based interventions on the self-efficacy and adaptation to life among individuals with a stoma: a systematic review and meta-analysis	Havanur Kılıç, PhD Student, Research Assistant, RN
11:45-12:00	Relieving patient anxiety in stoma care; an experimental research	Nermin Ocaktan, Acibadem University, Istanbul, Turkey
12:15-12:15	How do stoma patients judge the relevance of pharmaceutical management in hospital and outpatient settings? Results of the Pharment study (part II)	Vivien Berger, University Medical Center Hamburg-Eppendorf, Hamburg, Germany
12:15-12:30	Q&A	
12:30-13:30 Break		
Education & Research - stoma care		Chairs: Maria Jesus Bernarte Sorribas & Gabriele Kroboth
13:30-13:45	Importance of publication in nursing. Scientific Journal Headquarters	Immaculada Pérez, Spain
13:45-14:00	Effect of Technology-based Educational Tools on Stoma Care Education in Nursing Students: a Systematic Review Meta-analysis	Aleyna Uçanbelen, Koç University, School of Nursing
14:00-14:15	Continuity of care. Ostomy care guide in primary care	Milagros Martin, Spain
14:15-14:30	Humanization of care: Manual of good practices of humanization of ostomy consultations	Gemma Arrontes, RN, MSc, PhD, Spain
14:30-14:45	Post-Surgical Stoma Output Monitoring: A New Strategy to Reduce Re-admission Rates	Victoria Gilpin, Northern Ireland
14:45-15:00	Big souls, small bodies and little stomas	Claudia Poggi, Israel
15:00-15:15	Closing of ECET 2025	

The ECET conference 2025 offers 3 full days of high level scientific and clinical sessions and workshops, networking activities as well as excellent opportunities to exchange knowledge and experiences with international colleagues.
